A master can tell you what he expects of you but a teacher, though, awakens your own expectations ,
and Syed Sir stands testimony to this fact .

Not only does this institute develop scholastic aptitude but also focuses on behavorial aspects of a student ensuring holistic development and preparing them for any challenge that the out world has to offer .
At Syed Sir classes we have deduced a simple formula for success i.e

dilligence + sincerity + syed sir = success

Undoubtedly there isn't any better place to learn fundamentals of Physics and Maths.Syed sir is much more than just a teacher. I hated Maths, but after spending 2yrs with Sir, my mindset changed. Now I'm looking forward for PCM from 11th class.
